

What's on...

MISSION.dna

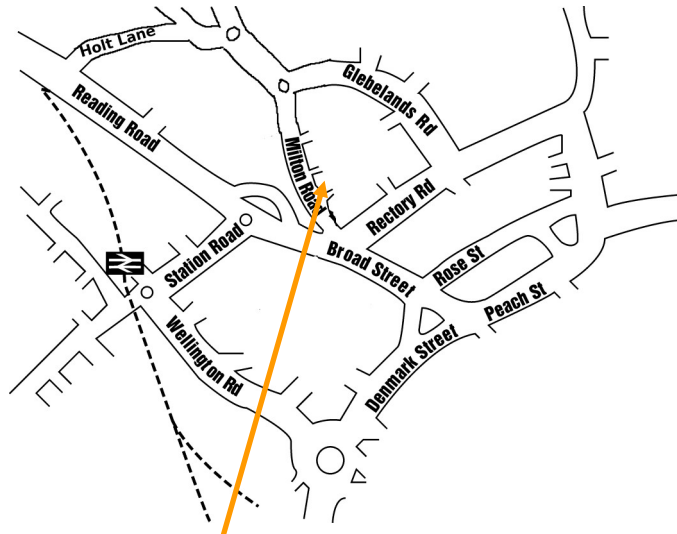

Is mission just for keen Christians, or part of God's character that we embrace in our discipleship?

From different angles we will be looking at the full spectrum of mission, from the local to the global, and our part in it.

Sunday Evenings

Quieter than the morning services, and with more space, generally the theme from the morning will be explored from different angles and in more detail. As we gather at the close of day, there will be time to reflect and go deeper, both personally and corporately.
